

Hey Guys! Tired of beard-itch?

Both Gage Clarifying Serum and Gage Facial Moisturizer contain CBD, which does a wonderful job of quieting that irritating itch. Gage is a moisturizer, antioxidant, and collagen promoter, and helps keep blemishes at bay too. Each squirt of the airless pump releases exactly .2 ml of goop. Three-four squirts in the palm of your hand, a quick washing motion on the face, and you're done in less than a minute. Say goodbye to fine lines and dry blotchy skin—and beard itch!—and hello to clear, vibrant, healthy skin. As for free radicals and the damage they cause, Gage delivers in spades with 150mg of CBD (3mg per application) to guard against oxidative stress.

Cool bearded guy for GreenSky

1 fl oz (30 mL)

MOISTURIZE & REPAIR

This advanced serum has been designed to nourish the skin, lessen signs of aging, and promote a clear, healthy complexion.

Palmitoyl TriPeptide-38 (Matrixyl Sente'6™) is a synthesis of six anti-aging peptides that reduce fine lines and wrinkles by promoting the production of new collagen.

Cannabidiol (CBD) is a potent antioxidant, antibacterial, and anti-inflammatory that soothes skin, balances oils, and protects against the buildup of free radicals.

Fragmented Hyaluronic Acid penetrates deeply to lock in moisture, reduce fine lines and wrinkles, and improve skin elasticity.

Tea Tree Oil is a natural antibacterial that helps reduce blemishes and irregular skin tone.

Argan Oil is rich in omega fatty acids essential to skin repair and regeneration.

COMMUNICATE WITH YOUR SKIN

GAGE penetrates deeply to deliver vital nutrients, bolster new skin growth, and revitalize.

The GAGE "Hit" List:

- Wrinkle-reducing peptides
- Hydrating hyaluronic acid
- Toning DMAE & MSM
- Inflammation-reducing, free radical fighting CBD
- Vitamin B3 brightening
- Tea tree oil, CBD, and white willow bark blemish control
