

CBD Made Easy and Eloquent

CBD positively affects many aspects of our physicality, and when used properly, **Aphrodite** can be wonderfully uplifting to both mind and body. Each squirt of its airless pump releases .2 ml of serum containing 20mg of active CBD. No clumsy dropper to mess with and no hard-to-reach tincture left over at the bottom of the bottle because the pump captures it all, right down to the last drop. Precision dosing has never been easier.

Aphrodite is about the size of a large lipstick case and is unbreakable, making it safe to carry and easy to use in a discreet, inconspicuous manner. At 20mg of CBD per tiny squirt, it's also one of the most potent tinctures available, and it tastes great!
